Definitions of Reported Data

"Positive" only includes individuals with a lab-confirmed positive test. Negative Rapid test results must be followed with a negative PCR test to be valid.

When Individuals are exposed to a positive case they will be quarantined and monitored for symptoms for at least 14 days.

Individuals who test positive must quarantine for at least 10 days. Individuals who have tested positive must be fever free and symptoms drastically improved for at least 24 hours (without fever reducing medication) prior to return to work or school.

"Quarantine" includes individuals who might have been exposed to COVID-19 or who have recently had close contact with someone with COVID-19.

"Close Contact" or "exposure" includes individuals who were within 6 feet of an infected person for at least 15 cumulative minutes starting from 48 hours before symptom onset or testing if asymptomatic.
